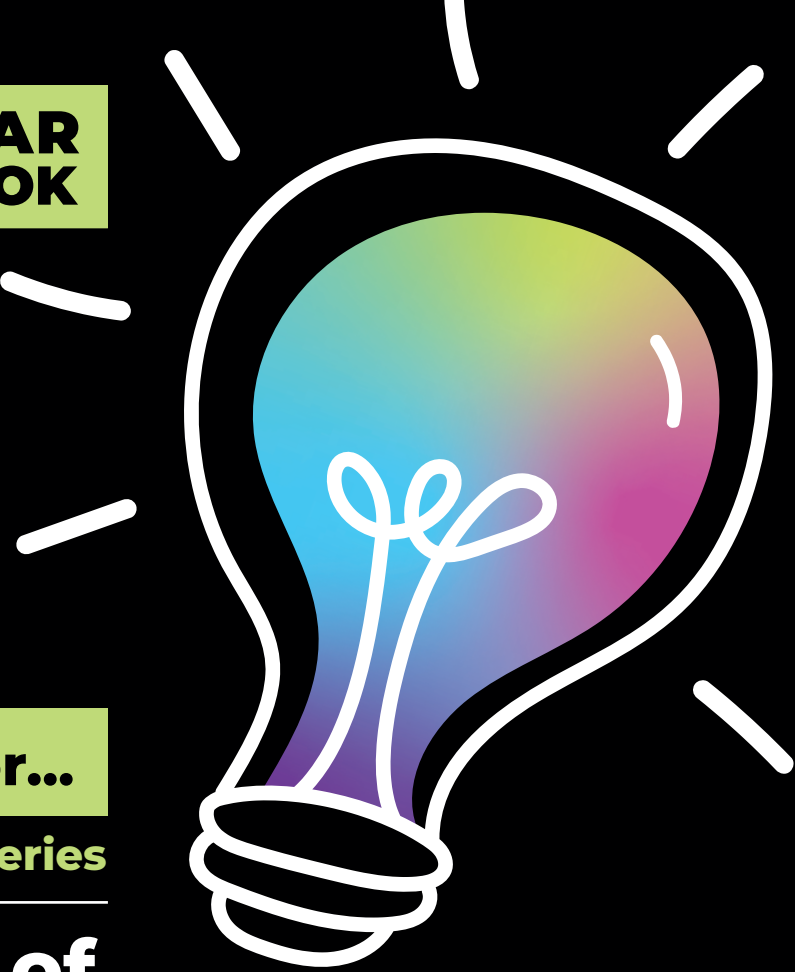
2026 YEAR BOOK



I Wonder...

Workshop Series

A Year of Creative Exploration

Don't forget this year.

The "I wonder..." moments,
the things you tried, and
the ways your creativity grew.

Welcome to your year of creative exploration!

Dear Curious Human,

We're so glad you're here. This yearbook is a place to capture what happens when you follow a simple instinct:

I wonder what it would be like to...?

The *I Wonder...? Workshop Series* was created for adults who feel that quiet nudge. Not because you need a new skill for your résumé or because you're trying to be productive, but because something inside you is asking to be explored.

This series is an invitation to begin again, and this yearbook is where you document your own growth. Creative exploration rarely stays contained within a studio; it has a way of shaping how you solve problems, how you listen, how you lead, and how you adapt. When you practice curiosity in one part of your life, it tends to show up everywhere else.

Inside these pages, you'll record what you created, what surprised you, and what challenged you. Over time, it becomes proof that you showed up, tried something new, and led with wonder. And the more you wonder, the more you'll discover.

Stay curious,
Your friends at The Center

Class of 2026 Partners & Classes

APRIL

GUITARS OVER GUNS

I WONDER...
What It's Like to
Record in a Studio

MAY

Oolite Arts

I WONDER...
What It Would be Like to
Create with Clay on a Canvas

JUNE
